FOR IMMEDIATE RELEASE

March 27, 2018

PK U.S.A., Inc. becomes first company in Shelby County, Indiana inducted into the Environmental Stewardship Program.

Proving once again, that PK U.S.A. is not only committed to Shelbyville and Shelby County, but to our associates and the environment as well, PK has been inducted into membership with the Environmental Stewardship Program (ESP).

The ESP program is administered through the Indiana Department of Environmental Management, and has been developed in conjunction with Indiana businesses to help promote and recognize those Hoosier businesses that make both the environment and the economy their top priority. Program participants truly exemplify the program's motto of "Better Environment, Better Business."

Bruno Pigott, IDEM Commissioner, presented a plaque and flag to PK U.S.A. President and CEO, Masakazu Nakayama, in recognition of the work PK U.S.A. has done at the Shelbyville facility. "Only 58 businesses in the State of Indiana possess this certification. PK has demonstrated its commitment by implementing its own Environmental Management System ensuring the reduction and control of environmental impacts of its activities, processes and services. Everyone at PK should be very proud of this award. The productive creativity of everyone at PK U.S.A. was obvious during the certification and compliance process," remarked Commissioner Pigott.

“We owe our success to the hard work of our associates, and we are grateful to be honored with this award and certification,” stated Mr. Nakayama. “We continually strive to ensure our facilities are safe today, and for generations to come. It is our duty to protect the environment in which we live and work every day.”

PK U.S.A., Inc. is the primary supplier of metal body parts, chassis parts and plastic injection parts for automotive companies in the United States as well as other parts of the world. As a tier one supplier to the automotive industry, PK U.S.A., Inc. is dedicated to providing customers with only the highest quality automotive components.
